EXPERIENCE

UI/UX Designer

Mobigic Technologies Pvt. Ltd.

May 2025 – Present

Pune

- Led end-to-end product design for **B2B platforms**, including HRMS and access control systems.
- Translated complex business requirements into intuitive user workflows.
- Improved task efficiency by simplifying navigation and reducing interaction steps.
- Collaborated with developers and stakeholders to balance usability, feasibility, and business goals.
- Delivered responsive web and mobile designs using Figma, improving usability and adoption.

UI/UX Designer Intern

Chamberly AB

May 2024 – Sept 2024

Remote

- Created wireframes, prototypes, and high-fidelity designs with strong UX rationale.
- Designed key features for a mental-health **iOS** app including Home, Journal, and Mood Tracking.
- Translated user insights into intuitive, emotionally supportive interfaces.

SELECTED PROJECTS

Mobigic HR360 | B2B HRMS Platform (Web & Mobile) 

Nov 2024 – Jan 2025

- Mobile-first HR platform simplifying daily HR operations for employees and admins.
- Converted complex HR workflows into clear, actionable user journeys.

InGate — Access Control System 

Jul 2024 – Dec 2024

- Designed role-based dashboards and streamlined visitor check-in/out experiences.
- Enabled real-time visitor tracking with intuitive information architecture.

Chamberly — Home, Coin Space & Journal 

May 2024 – Aug 2024

- Designed engaging home experience and reward-driven Coin Space feature.
- Focused on clarity, motivation, and emotional well-being UX.
